Daily Meetings

📅 01/10/2025 — First Meeting & Sprint Planning

In this meeting, we divided tasks for each discipline introduced in the first sprint of the project.

BDDAD:

Since we only know that we need to complete the first 4 user stories (for now), we decided that everyone will be responsible for all of them.

→ Rationale: we consider collaboration among all members essential.

ESINF:

- Leonor → User Story 1
- Sofia → User Story 2
- Francisco → User Story 3
- Mariana → User Story 4
- All → User Story 5

⚠️ Agreement: if a user story is more complex, everyone can intervene to support.

LAPR:

With only 2 user stories, we again decided that all members will be responsible for all of
them.

Additionally:

- Created the GitHub repository and project board.
- Started organizing tasks and responsibilities.

📅 02/10/2025

✅ **Yesterday**

- All members: reviewed the project statement again to identify key terms.
- Improved organization of the project and GitHub repository.

🎯 **Today's Tasks**

- **Leonor**: create the first sketch of the domain model (Markdown).
- **Sofia**: create the first sketch of the glossary (Markdown).

- **Mariana**: research how to create the glossary in Visual Paradigm.
- **Francisco**: explore how we can all use Oracle Live SQL simultaneously.
- **All members**: define the **Definition of Done (DoD)** for each user story.

⚠️ **Problems & Solutions**

- No problems reported so far.

📅 **03/10/2025**

✅ **Yesterday**

Leonor: Updated the domain model, added some key terms to the glossary and did the DoD for all US.

Sofia: Updated the glossary, tried to understand how to use visual paradigm simultaneously. Did the DoD for some US.

Mariana: Also tried to learn how to use visual paradigm simultaneously. Ended the research on how to add our glossary to VP.

Francisco: Reviewed the project scope again and identified key terms. Also worked on the glossary

🎯 **Today's Tasks**

Leonor, Sofia & Francisco: Will continue to update the DM and glossary.

Leonor: Will also try to start ESINF

Mariana: Trying to add the glossary to the VP.

⚠️ **Problems & Solutions**

Mariana: Having some problems adding the glossary to VP. Will continue to try today, will ask for help if necessary.

📝 **Additional Notes**

There are three people working on the Data Management (DM) and glossary because, in this initial phase, we found it is important to have all key terms aligned. This ensures we can start building the database correctly.

📅 **06/10/2025**

✅ **Yesterday**

Leonor: Initiated the setup of all domain classes for the ESINF module.

Sofia: Updated the glossary by converting it from Markdown to VP format.

Mariana: Assisted Sofia with the conversion process of the glossary from Markdown to VP format.

Francisco: Expanded the glossary by adding additional key terms.

🎯 **Today's Tasks**

Leonor: Will complete the setup of the domain classes for the ESINF module and begin the implementation of the FileValidation class.

Sofia: Will proceed with updating the domain model.

Mariana: Will continue updating the glossary.

Francisco: Will update the domain model.

⚠️ **Problems & Solutions**

None.

📅 **07/10/2025**

✅ **Yesterday**

Leonor: Completed the setup of the domain classes for the ESINF module and began implementing File Validation.

Sofia: Updated the domain model.

Mariana: Updated the glossary.

Francisco: Updated the domain model.

🎯 **Today's Tasks**

Leonor: Continue the fileValidation for esinf.

Mariana, Sofia, Francisco: End the domain Model.

All: Will meet to discuss and create an initial sketch for the database structure.

⚠️ **Problems & Solutions**

None.

📅 **08/10/2025**

✅ **Yesterday**

Leonor: Worked on file validation for ESINF.

Sofia, Mariana, Francisco: Finalized the domain model.

🎯 **Today's Tasks**

Leonor: Continue the fileValidation class for esinf.

All: Following a meeting with the LAPR instructor (PL), the team will revise the domain model to address the feedback and topics discussed.

Sofia, Mariana, Francisco: Make the needed adjustments to the previously discussed.

⚠️ **Problems & Solutions**

None.

📅 **09/10/2025**

✅ **Yesterday**

Leonor: Finished the file Validation.

Sofia, Mariana, Francisco: Finalized the domain model.

🎯 **Today's Tasks**

All: Get together to review and make changes to the database together.

⚠️ **Problems & Solutions**

None.

📅 **11/10/2025**

✅ **Yesterday**

All: Got together to review and make changes to the database together.

🎯 **Today's Tasks**

- Mariana: Change the domain model from markdown to VP.
- Leonor, Sofia: Started working on their US for Esinf.
- Francisco: Tested the file validation.

⚠️ **Problems & Solutions**

None.

📅 **13/10/2025**

✅ **Yesterday**

- Mariana: Changed the domain model from markdown to VP.
- Leonor, Sofia: Started working on their US for Esinf.
- Francisco: Tested the file validation.

🎯 **Today's Tasks**

- Mariana: Finalize the domain model on VP. Start her us for esinf.
- Leonor, Sofia: Continue to work on their US for Esinf.
- Francisco: Start working on his us for esinf.

⚠️ **Problems & Solutions**

None.

📅 **14/10/2025**

✅ **Yesterday**

- Mariana: Finalized the domain model on VP. Started her us for esinf.
- Leonor, Sofia: Continued to work on their US for Esinf.
- Francisco: Started working on his us for esinf.

🎯 **Today's Tasks**

- Francisco, Mariana: Continue to work on their us for esinf.
- Sofia: Run more tests for file validation.
- Leonor: Add authentication to the project.

⚠️ **Problems & Solutions**

None.

✍️ **Daily Meeting Comments**

Leonor: I believe the team is progressing well and has good communication. So far, there haven't been any issues.
Sofia: Our team is working well, all the tasks we have are progressing as expected.
Mariana: I think our team is focused on the work and making good progress.
Francisco: The teamwork is going really well, and the project is progressing smoothly.

📅 **15/10/2025**

✅ **Yesterday**

- Mariana: Worked on her US for ESINF.
- Leonor: Successfully added the authentication
- Sofia: Added unitary tests and continued her US for ESINF.
- Francisco: Worked on his US for ESINF.

🎯 **Today's Tasks**

- All: Continue implementing their US for esinf.
- Leonor: Add the conceptual model for BBDAD.
- Mariana: Update some concepts in the domain model.

⚠️ **Problems & Solutions**

None.

✍️ **Daily Meeting Comments**

Leonor: I think the team continues to make good progress, and every day we're doing what's expected of us.
Sofia: According to what I said before, I still believe we are ahead of schedule and the sprint is going well.
Mariana: According to what I said before, I still believe we are ahead of schedule and the sprint is going well.
Francisco: According to what I said before, I still believe we are ahead of schedule and the sprint is going well.

📆 **16/10/2025**

✅ **Yesterday**

- All: Continued to implement their ESINF US.

🎯 **Today's Tasks**

- All:
- Continue implementing their US for esinf.
- Reunite and update the relational model.

⚠️ **Problems & Solutions**

None.

✍️ **Daily Meeting Comments**

Leonor: We agreed to finish ESINF tasks this week i think that we will achieve that. So far no issues.
Sofia: This week we are hoping to finish all the US, of ESINF at least, so that we can review them troughout the next week and improve some small details. The team is working well and helping each other.
Mariana: I believe the team is working really well and focusing on our goal to finish the ESINF user stories until the end of this week
Francisco: The team is working really well together, and the project is on the right track.

📆 **17/10/2025**

✅ **Yesterday**

- All: Continued to implement their ESINF US, and, reunited and updated the relational model.

🎯 **Today's Tasks**

- All:
- Continue implementing their US for esinf.

⚠️ **Problems & Solutions**

None

✍️ **Daily Meeting Comments**

Leonor: As I said yesterday, I think everything is going well, we are still implementing and testing ESINF tasks and until now we have had a great communication.
Sofia: As I said before, everything is going smoothly, there were no problems.
Mariana: Everything is progressing well and the team is maintaining good communication.

Francisco: We’re collaborating efficiently, and the project is developing exactly as planned.

📅 **21/10/2025**

✅ **Yesterday**

- All: Continued to implement their ESINF US.

🎯 **Today’s Tasks**

- All:
- Continue implementing tests for their US for esinf.
- Reunit with the BDDAD teacher and update the relational model

⚠️ **Problems & Solutions**

None.

✍️**Daily Meeting Comments**

Leonor: I think the team did really well this sprint. The sprint is almost over, and we’re just reviewing and improving the code.

Sofia: I feel like the team has a great communication and is developing the project efficiently.

Mariana: The team is working well and we finished most of the work and started reviewing.

Francisco: Everyone’s contributing effectively, and the project is moving in the right direction.

📅 **22/10/2025**

✅ **Yesterday**

- All: Continued to implement tests for their ESINF US.

🎯 **Today’s Tasks**

- All:
- Continue implementing tests for their US for esinf.
- We will meet and code the queries for BDDAB.

⚠️ **Problems & Solutions**

None.

✍️**Daily Meeting Comments**

Leonor: Everything is going very well.

Sofia: These are the last days of the sprint, and everything is already done and we are only improving what has been done.

Mariana: Team focused on reviewing work and ensuring everything is ready.

Francisco: Our team is collaborating well, and the project is on track to meet our goals.
